What is CareRing

CareRing is a service providing personal telephone contact for people who experience social isolation. Referrals cover up to 6 weeks, with the option to extend if required.

CareRing aims to connect people with the community in an effort to improve social contact and reduce isolation.

Who is eligible?

- People who live alone or feel isolated
- People who have health problems

How does CareRing work?

A CareRing Volunteer will make a call at an appointed time.

CareRing Volunteers may provide information about community activities.
